Line and Desk, 3-30.
Line and Desk, 4-44.
Line and Desk, 5-34.
Line and Desk, 6-24.
Line and Desk, 7-34.
Line and Desk, 8-32.
Line and Desk, 9-28.
Line and Desk, 10-34.
Line and Desk, 11-29.
Line and Desk, 12-31.
Line Testing from Headquarters, by E. S. Stewart, 9-30.

M

Modern Telephone Storage Batteries, by Ray Blain, 8-19.
Modern Tools Are Essential, by Ray Blain, 9-23.
Mo. Telo. Association Holds Annual Meeting in Kansas City, 12-45.
Moving Submarine Cable Into New Location, 3-40.
My Experience in Making Collections, by Mrs. Geo. Winters, 540.

N

National Telephone Convention Next Week, 10-33.
New Type of Television, 4-33.

O

Ohio Exchange Installs Feature Board, 11-31.
One Company to Operate in Twin Cities, 9-34.
Originating Office Circuits, by John H. Levis, Jr., 9-21.

P

Pitch-Treated Lodgepole Pine Poles Give Short Life, by R. M. Wirka and C. N. Whitney, 1-28.
Preserving the Switchboard No Problem, by Ernest Wommack, 12-28.
Prevention of Singing and Carrier Suppression, by F. J. Dommerque, 9-19.
Principles of the Automatic Telephone, by E. R. Collins, 12-20.

R

Recent Developments in the Creosoted Pine Pole Industry, by R. E. Meyers, 7-21.
Relay Strip and Rack Layout, by John H. Levis, Jr., 8-21.
Reliable Electric Company Celebrates 20th Birthday, 1-30.
Rural Line Development, by R. J. Benzel, 7-36.

S

Selects Stromberg-Carlson Equipment, 2-36.
Setting High Poles, by Ray Blain, 7-25.
Soldering and Its Importance to the Industry, by Ray Blain, 5-17.
Soldering Is Very Important Part of Work, 6-42.
Solutions to Telephone Signaling Problems, by F. J. Dommerque, 11-21.
State Conventions Evidence Great Interest, 6-24.
Straightforward Trunking, 6-21.

Straightforward Trunking Studies, by E. R. Stonaker and E. R. Costich, 3-17.
Straightforward Trunking Studies, by E. R. Stonaker and E. R. Costich, 4-19.
Straightforward Trunking Studies, by E. R. Stonaker and E. R. Costich, 5-21.
Straightforward Trunking System, by John H. Levis, 7-20.
Stromberg-Carlson at Aurora, Indiana, 1-38.
Stromberg-Carlson Net Earnings Break Record, 4-34.
Stromberg-Carlson Sales Increase, 8-30.
Studying Telephone Methods, by E. R. Collins, 1-19.
Studying Telephone Methods, by E. R. Collins, 2-17.
Studying Telephone Methods, by E. R. Collins, 3-19.
Studying Telephone Methods, by E. R. Collins, 4-22.
Studying Telephone Methods, by E. R. Collins, 6-17.
Submarine Tunnel of Cast Iron, 7-24.
Subscriber Records for Small Exchanges, by W. H. Bowdle, 12-27.

T

Telephone Activities Abroad, 12-34.
Telephone Industry Carries On, 10-32.
Telephone Storage Batteries, by Ray Blain, 7-31.
Telephone Transmission Computations, by T. DeWitt Talmage, 10-22.

With the Manufacturers, 6-46.
With the Manufacturers, 7-48.
With the Manufacturers and Jobbers, 8-46.
With the Manufacturers and Jobbers, 9-40.
With the Manufacturers and Jobbers, 10-52.
With Manufacturers and Jobbers, 11-50.
Wonderful Growth Because of Wonderful Equipment, 4-38.

Z

Zone Rates for Rural Service, by L. W. Scherer, 5-32.

EFFICIENCY

Here are two lights universally accepted by "trouble shooters" as superior for every requirement.

The Industrialite makes and breaks contact conveniently through a twist of the top cap. An emergency bulb is kept in a tiny clip within the head assembly.

The Lantern needs no introduction to telephone men. It brilliantly illuminates a wide area and may be used at any angle.

BOND ELECTRIC CORPORATION
